E-mail: isfs2017@iuh.edu.vn

April.24., 2017

Dear..... Sr. / Madam.....

Institute of Biotechnology and Food technology (Industrial University of Ho Chi Minh City) is going to host the International Symposium on Food Security and Sustainable Development 2017 (ISFS 2017) to report new research results in the fields of Food Science and Technology. The symposium is also an opportunity for scientists and colleagues, policy makers and industry leaders nationwide and worldwide to meet, discuss and exchange ideas, learn from each other, and work towards shaping a sustainable development based on the principles of safety, nutritious food, food security and sustainable agriculture.

The International Symposium on Food Security and Sustainable Development 2017 (ISFS 2017) will be held from November 22nd to 24th, 2017 at Industrial University of Ho Chi Minh City, Vietnam.

The ISFS 2017's scientific fields:

- Feeding swelling population in Asia
- Science to improve food security
- Sustainable agriculture
- Food safety in supply chain
- Climate change and food security
- Management and compliance for food supply
- Future trends in food production
- Policies and initiatives to improve regional food security

To contribute to the success of the ISFS 2017 at Industrial University of Ho Chi Minh City, we would like to invite you to participate in the ISFS 2017, send the scientific papers and present at the symposium.

During the symposium days, there are two extra events:

- The 4th Asia-Pacific Probiotics Workshop 2017
- Two-day Food Safety short course: Risk assessment in meat and seafood industry

The symposium's agenda:

- Abstract submission deadline July 15th, 2017
- Early bird registration deadline September 15th, 2017
- Deadline for the full papers for the Proceeding September 30th, 2017
- Symposium November 22nd - 24th, 2017

November 24th, 2017: The technical tour to Aquatic farm and Industrial zone.
