## Themes:

- Influences of the political, economic, and social crisis during the COVID-19 pandemic on group psychology and social structure.
- Changes in national laws and international conventions to deal with the global pandemic and the conflict between nations.
- E-government and related issues in the context of the COVID-19 pandemic.
- Policies to protect businesses in the context of the COVID-19 pandemic and economic sanctions.
- The conflict between nations from a philosophical point of view.
- The continuity and discontinuity in the structure of individuality and social identity.
- Effects of changes in world politics on the material production and the dialectical structure between the economic base and the political superstructure.
- Sustainable development and supply chain diversification.
- Issues of integration, multilateralism, cooperation in conflict with isolation, unipolarism in politics, diplomacy, and economy.
- Anthropocene - human and environmental issues.
- Environmental policy in the context of the global pandemic.
- Opportunities and challenges of computerization and digitalization.
- Practical lessons from public policies – comparative studies in Vietnam, Japan, Korea, China, the US, and other countries.
